Illustrated guide · Everyone · 3 minutes

Public: connect and explore

Read the public summary and explore the cleared Vision 2076 postcards. You can start immediately, without an account.

ecpcompanion-dashboard.missionspubliques.tech

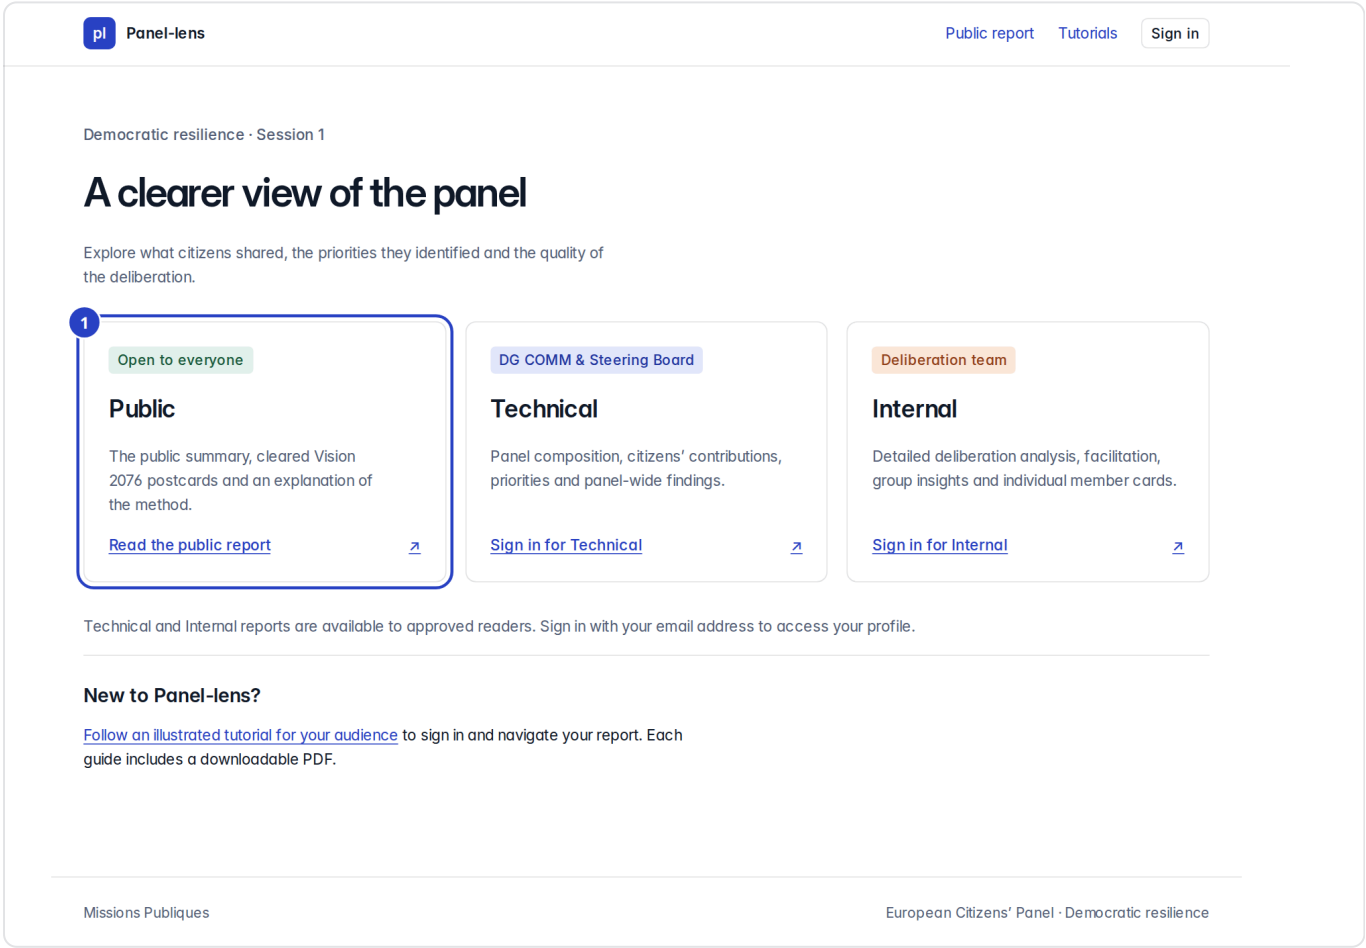

> **Your access**
>
> Public content is open to everyone. A Public account does not unlock Technical, Internal or access administration.

Illustrations use the real interface with fictional example accounts and report data.

01 Choose Public on the homepage

Open ecpcompanion-dashboard.missionspubliques.tech. In the Public card, select Read the public report. You do not need to sign in or select an account profile.

The three cards are report entrances. Selecting Technical or Internal does not grant access to those categories; an administrator must approve the corresponding email address first.

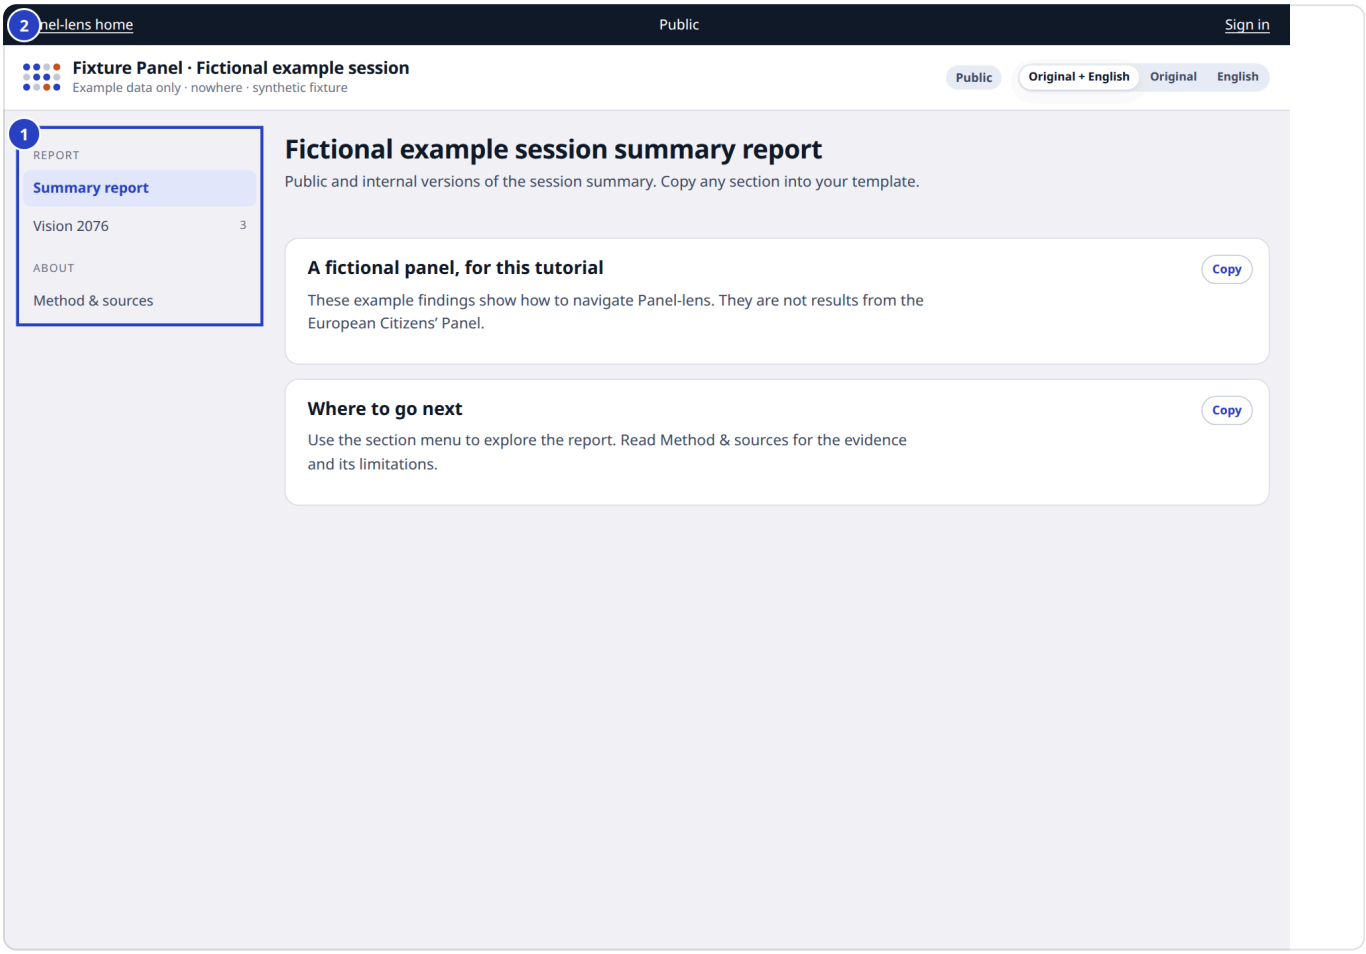

The outlined Public card is the open entrance. The other two reports require approved access.

02 Start with the summary, then use the section menu

Select Summary report to read the overview. Use the menu on the left to move between Summary report, Vision 2076 and Method & sources. A section appears only when its content is available.

On a phone, the report's section menu becomes a horizontal strip near the top. Swipe across it to find a section, then tap its name. The portal's separate Menu button contains account navigation.

Method & sources explains the evidence and its limitations. Use Panel-lens home in the top bar to return to the three report cards.

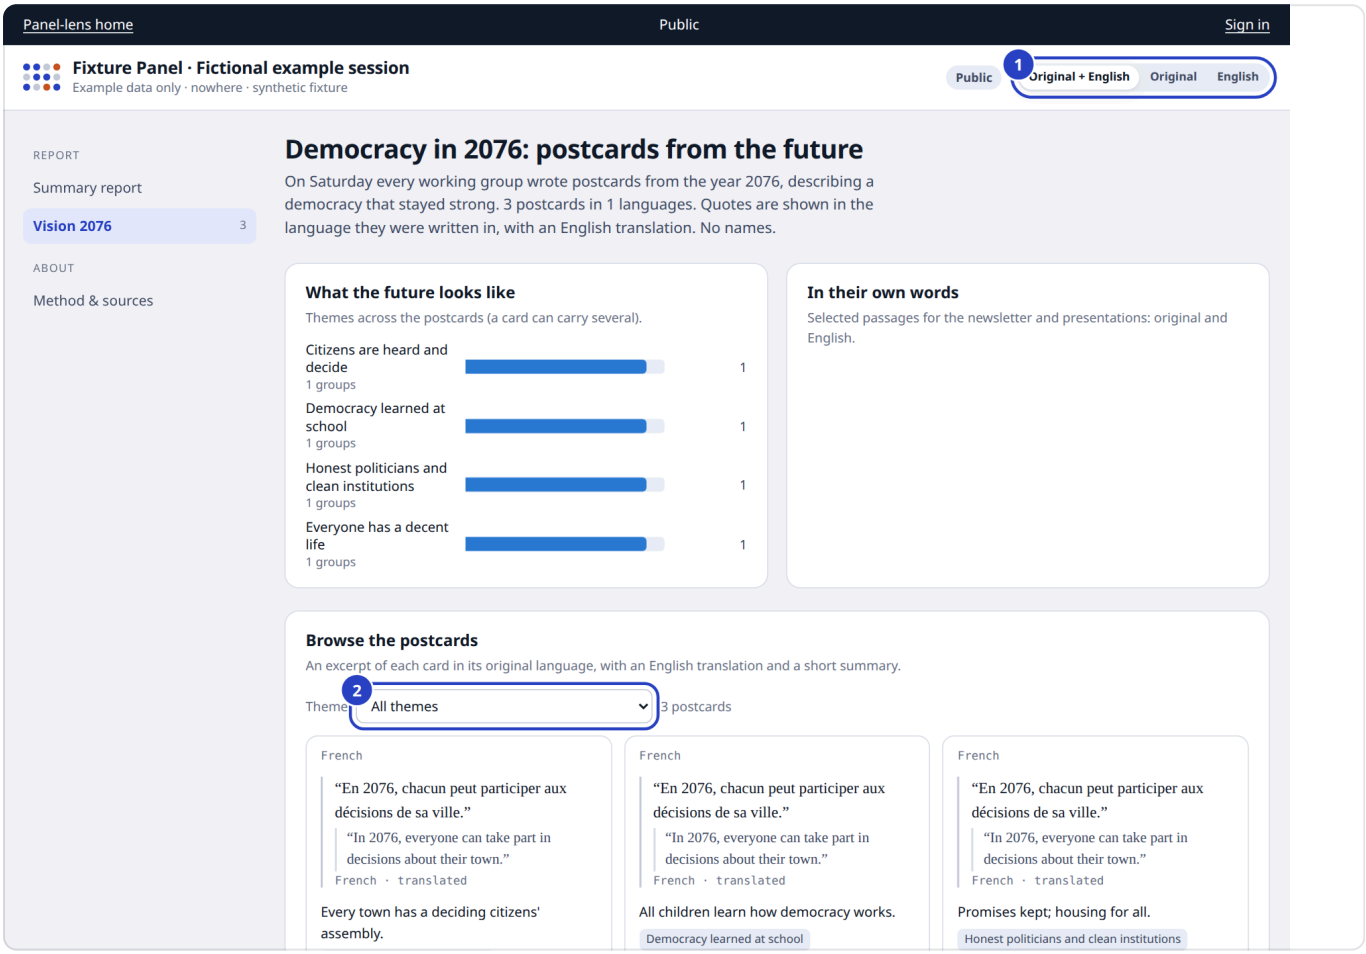

The section menu changes the report view. The top bar returns you to the portal.

03 Browse the postcards and choose a quote language

Select Vision 2076, then scroll to Browse the postcards. Use Theme to narrow the cards; select All themes to clear the filter.

At the top, choose Original + English, Original or English to change quotations where both versions are available. This changes the quotations, not the language of the whole website.

Public contains only postcards cleared for public viewing. To share the public report, send its link. Technical and Internal material is outside this public view.

The quotation-language buttons and Theme filter help you explore the postcards.

Your navigation at a glance

Summary report

Read the public overview.

Vision 2076

Browse cleared postcards and available translations.

Method & sources

Understand sources, coverage and caveats.

If something does not work

The code email is missing

Check spam or junk and mark a legitimate Panel-lens message as not spam. Verify your email address. Only approved, active accounts receive codes; ask the panel administrator to check your access. Avoid repeated requests.

The code is rejected or expired

Use the latest code requested in that same browser session within 10 minutes. After too many failed attempts, or if the session is no longer usable, start a fresh sign-in session and request a new code. Never share a code with support.

“This page needs a different profile”

Return to Panel-lens home and open your assigned report. Selecting another category does not grant access. Ask the administrator if your profile needs changing. Internal readers should use the Internal entrance for technical material.

I cannot find a section on my phone

Swipe the report’s horizontal section strip. On portal pages, use Menu for account navigation. A section may be absent because the current report or your access level does not include it.
